Moving in? Here's how

A few steps before and on moving day.

1. Tell the society office your flat number and moving date.
2. Owners: add your tenant or family in the app, or ask the office to add them.
3. Tenants: share your rental agreement and ID proof with the office.
4. Register your vehicles so the gate knows them.
5. Book the lift or loading area for moving day if the society asks for it.
6. Sign in to the resident app once you have been added.

Moving out later? Start it in the app or at the office, and clear your dues first.
